S

Profile

I am an enthusiastic and dedicated entry-level web developer with a passion for creating dynamic and user-friendly websites. With a solid foundation in HTML, CSS, and JavaScript, I am excited to apply my skills to bring innovative ideas to life.

Work experience

02/2009 – 01/2012
Midland, TX, US

Drilling Fluids Technician
New Park Drilling Fluids

- Successfully managed drilling fluid systems for multiple drilling rigs, ensuring optimal drilling efficiency and cost savings.
- Conducted regular testing and analysis of drilling fluids, resulting in early detection of potential issues and prevention of costly equipment damage.
- Collaborated with drilling engineers and geologists to design and implement specialized drilling fluid programs for challenging drilling conditions, resulting in successful project completion.
- Trained and supervised junior drilling fluids technicians, improving overall team performance and productivity.

01/2019 – 06/2020
Colorado Springs, CO, US

Hot Tub Repair technician
Spa Palace

- Repaired and maintained hot tubs for residential and commercial customers, ensuring all work was completed to high standards and within agreed timescales.
- Conducted detailed diagnostic assessments to identify faults and recommended solutions, saving customers time and money.
- Installed and upgraded hot tub systems, including pumps, heaters, and control panels, ensuring seamless integration with existing equipment.
- Communicated effectively with customers to provide clear explanations of repair work and offer recommendations for ongoing maintenance, resulting in positive feedback and repeat business.

Education

05/2022 – present

Web Developement
The Odin Project

- Completed a rigorous curriculum in web development, including multiple courses in

Education

HTML, CSS, and JavaScript programming, resulting in a comprehensive understanding of front-end web development techniques and technologies.
- Utilized advanced debugging and problem-solving skills to identify and fix complex coding errors in online applications, leading to improved functionality and a more user-friendly experience for site visitors.
